

Advanced Reporting

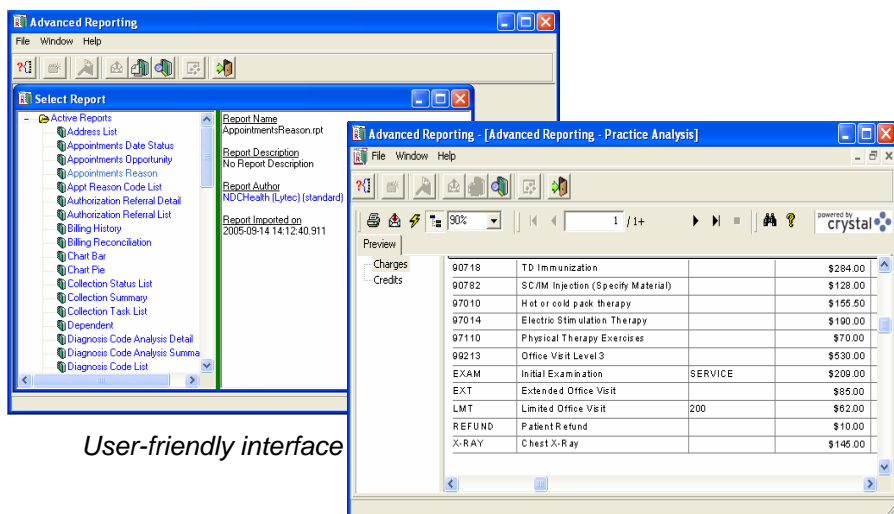

Customize, Create and Manage Reports!

New Option Now Available with Medisoft Version 11 — Advanced Reporting!

Transform your medical practice data into actionable information with custom and new reports using Medisoft Version 11 Advanced Reporting.

Flexible and Secure

- Easily modify many existing Medisoft Version 11 reports!
- Customize and organize reports through user-defined folders
- Customize many standard Medisoft reports or create entirely new reports through user-defined tables
- Import existing reports you may have created using Crystal Reports from a prior Medisoft version

Select and run reports easily

Robust Data Mining

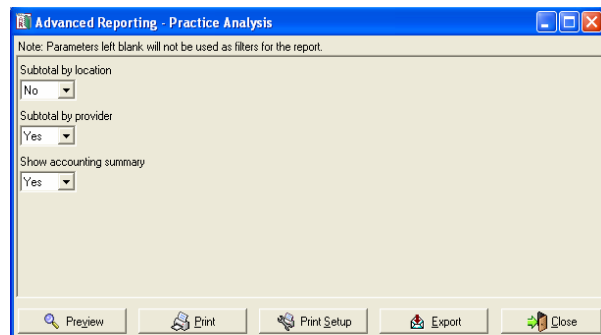

- Create and customize report filter parameters
- Create entirely new reports using Crystal Reports Professional V10

Intuitive

- User-friendly interface enables users to easily run new or modified reports
- Drag and drop custom reports and folders within a tree structure

Industry Standards

- Medisoft Advanced Reporting is based on the Industry-standard report writer, Crystal Reports from Business Objects
- Easy report and data export to Adobe (PDF), HTML, Excel, Word, ODBC, XML and RTF file formats

Create and customize parameters for report filtering
